 Comment:

a. These may be the coal mines of the former Aninoasa Corporation, near Petrosani. This district and the mines of the former Lona and Lupeni Corporation produced about 60 percent of all Rumanian coal. Fifty-one percent of these mines is now owned by the Soviets, and 49 percent by the Rumanians. It was disclosed in a meeting of the Soviet-Rumanian Sovrom Carbune Corporation that the corporation general manager is Antonov Dimitri Ivanovici and the deputy general manager Engineer George Gaina. The chief accountant is Iristenco Nicolae Codratisvici. William Szuder was appointed superintendent and Alexandru Panaiteescu first engineer of the Petrosani Coal Mines. Josif Jancu is the superintendent's deputy for financial and business matters in this area, Juliu Bona is chief accountant.

b. It is improbable that 82 percent of the coal output is delivered to the Soviet Union. The Soviet Union is not so much interested in the small Rumanian coal production as in the exploitation of Rumanian crude oil.
